BANGALORE,
1st October, 1952.

PRESS NOTE

On the 5th September 1952, Government passed orders that they would be taking over the monopoly of running buses on six specified routes, and prohibiting private bus owners from plying their buses on the above mentioned routes with effect from the 1st October 1952.

Several leading bus owners have since approached the Government with a request to postpone giving effect to the said Government Order till the 1st January 1953, mainly on the ground that about 300 private buses would be displaced and about 7,000 persons would be thrown out of employment. They placed that the time at their disposal since passing of the Government Order was too short for them to find alternative modes of livelihood for themselves or their staff, who have been in this line for the last several years. They, however, assure Government that they will earnestly co-operate in making the monopoly a success and that they will unconditionally surrender their permits on the monopoly routes on the 31st December 1952. Till that date they request the postponement of giving effect to the Government Order.

Government do not accept that there has been any short notice in this connection, as the scheme of nationalisation has been under contemplation for

the last four years, and what is now announced is only the first effective step in that direction. Anyhow, in deference to the wishes of the bus-owners and mostly in consideration of the plight of their staff, who would otherwise be thrown out of employment, Government have, as an act of generosity, decided that the Government Order of the 5th September 1952, be given effect to from the 1st January 1953, on the distinct understanding that thereafter no such representations will be heeded.

(P.N. No. 120/1-10-52/XXX 8301-8700).

List of existing private bus owners running services on the six routes to be monopolised with effect from 1st January 1953.
